DEVELOPMENT OF PVP SYSTEM IN VIETNAM

NGUYEN THANH MINH, PVPO, DCP – MARD / VIETNAM
VIENTIANE, LAO PDR Aug, 2014

CONTENTS

- > IMPROVING CAPACITIES OF THE SYSTEM
- > ACHIEVEMENT
- > COOPERATION ACTIVITIES
- > ACTION PLAN

ACTIVITIES TO IMPROVE SYSTEM

- Technical and practical workshops among DUS
 Testers to enhance capacity
- Setting up example varieties for some major species and issuing manual for DUS Testing of those species.
- Database management system of the varieties
- Workshop for increasing aware on PVP for relevant persons
- Drafting TG for new Species (Moringa Oleifera and Clerodendrum japonicum (Thunb.) Sweet)

Technical workshops

Exchange the experience on DUS Test, HN

Practice on using database management system

Experience on DUS for Cucumber

Technical Meeting for all DUS Testers

Selecting of example varieties for major crops

Preparation for Manual of rice

Discussion in the room

Check in the field

Seminar/workshop for relevant persons

Workshop in Da nang for provicial staffs – Aug. 2013

Seminar in Vinhphuc Province by the cooperation with JICA – Oct. 2013

Human resource: A group of technical staffs

This is important for implementation of PVP effectively

Condition for DUS Growing Test is improved

Database Management System

Sharing information between PVPO – NC and it's DUS Testing stations

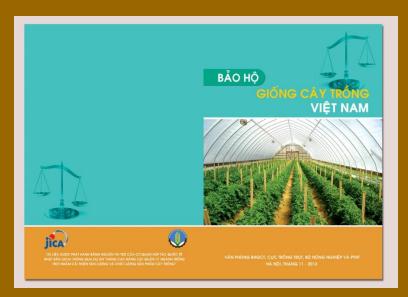

Database management system (in PVPO)

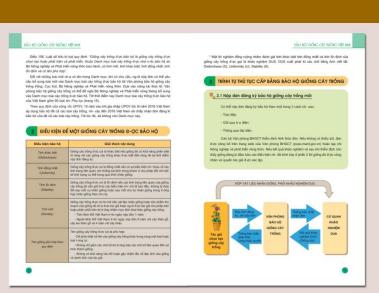

- Input and search relevant information of application and PVP Certificates
- Managing on the fee of PVP
- Statistic of application and Certificates
- Printing of Certificate and other document
- Check DUS report from DUS Stations
- Comparing the data of a variety in different season and data of many varieties for examination

Database management system (DUS Testing agencies)

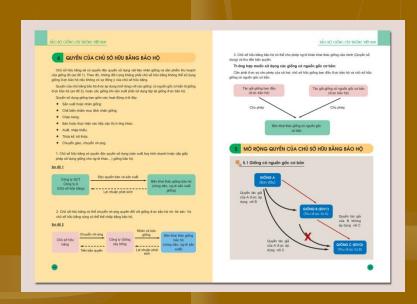

- Search the information of Candidate and registered varieties.
- Selecting of similar varieties
- Output the excel file of description table
- Comparing the result of 1 variety in different seasons
- Recording the note for the candidate variety based on the data of example varieties.
- Establishing the report and keeping pictures of Vars.

Brochures

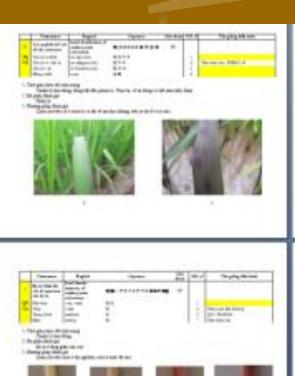

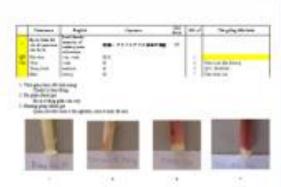

Manual for main crops

- Rice, Corn, Tomato, Cucumber, Chrysanthemum, Watermelon
- Example: Rice

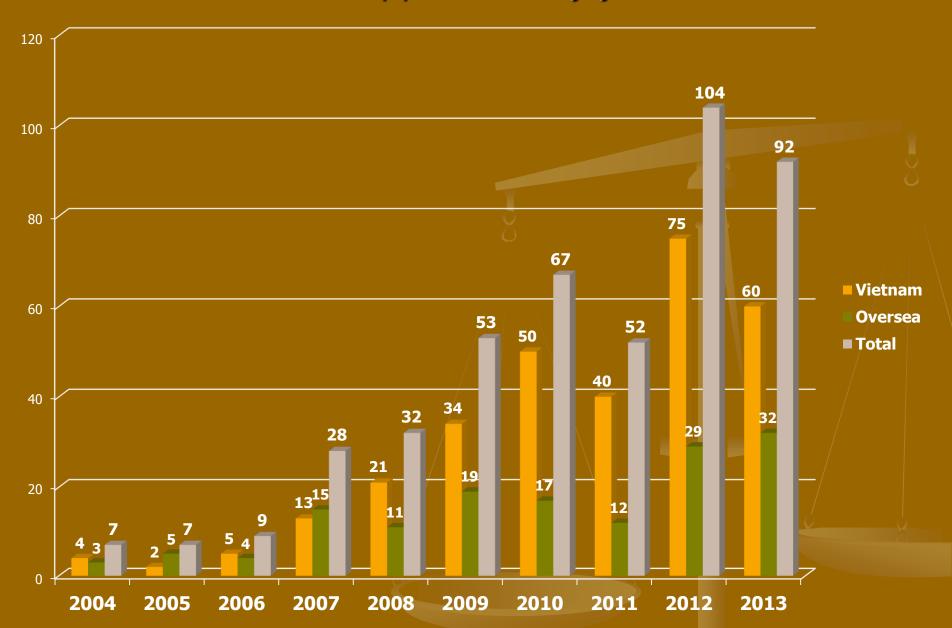

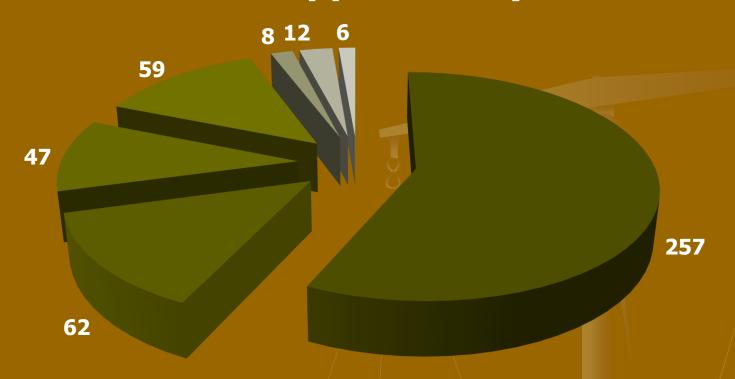

No of Application by years

Application by species (2004-2013: 451 Applications)

Flower - 13.1%

■ Other -1.8 %

Short Industrial Crop - 1.8% Fruit tree - 2.7%

■ Vegetable - 10.4%

COOPERATION ACTIVITIES

Exchanging experience with short-term expert from Japan in scope JICA project

Organize Meeting on administrative and technical harmonization in region

- Participants: ASEAN countries with Japan and Korea
- The meeting is organized by the cooperation with EAPVPF
- Contents: discuss on harmonizing of administrative procedures for PVP and TG of Dendrobium in region
- All the attended countries agreed that the administrative procedures on PVP should be harmonized in region and we need to find the best way for the progress

Photos of the Meeting

Discussing in the room

Visiting DUS Test Stations

Cooperation on examination of application

There were more than 30 PVP Certificates granted by DUS Test results from CPVO and the Netherlands

Continue to strengthen PVP System

- To expand the experience to other crops
- Consider on the re-organized the DUS Test agencies
- To enhance of PVP knowledge to the provincial and district levels
- To enhance on sharing the experience to other Members of EAPVP (Lao, Myanmar...) if possible
- Cooperation with EAPVPF more on region harmonization on PVP

Thank you for your attention
