Exist online PVP application is in php 5.4 program ☒ vulnerable to cyber attack ☒ end of June 2022 got hack ☒ has been restore and applicants data is save, but still vulnerable

Closed for public

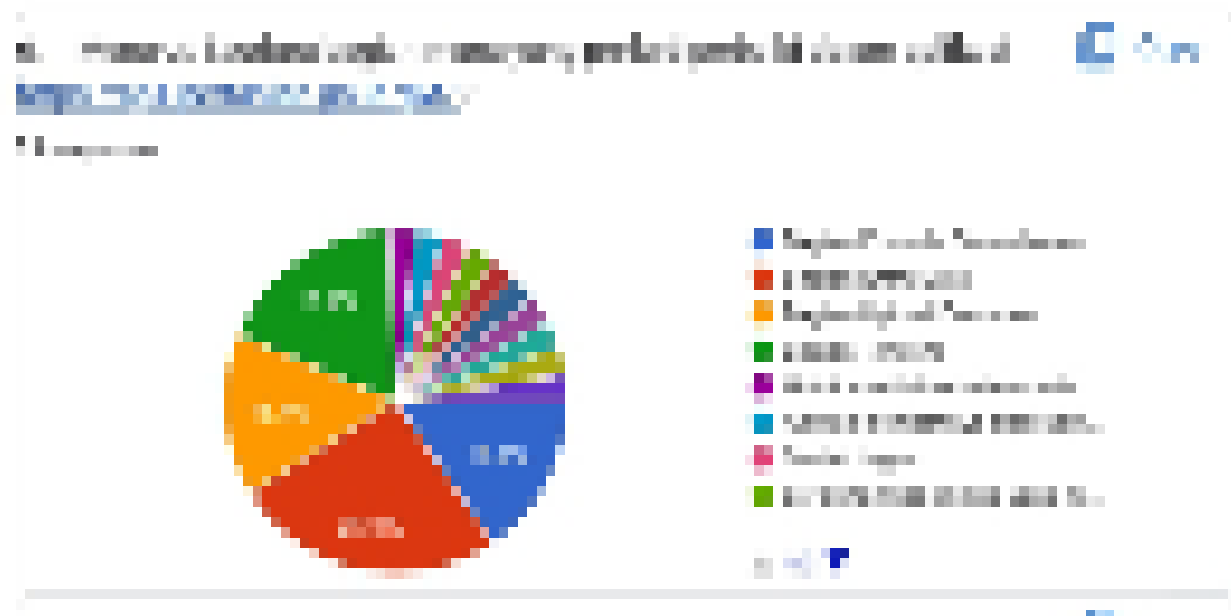

New advance PVP application is needed

Customer - Quisioner result

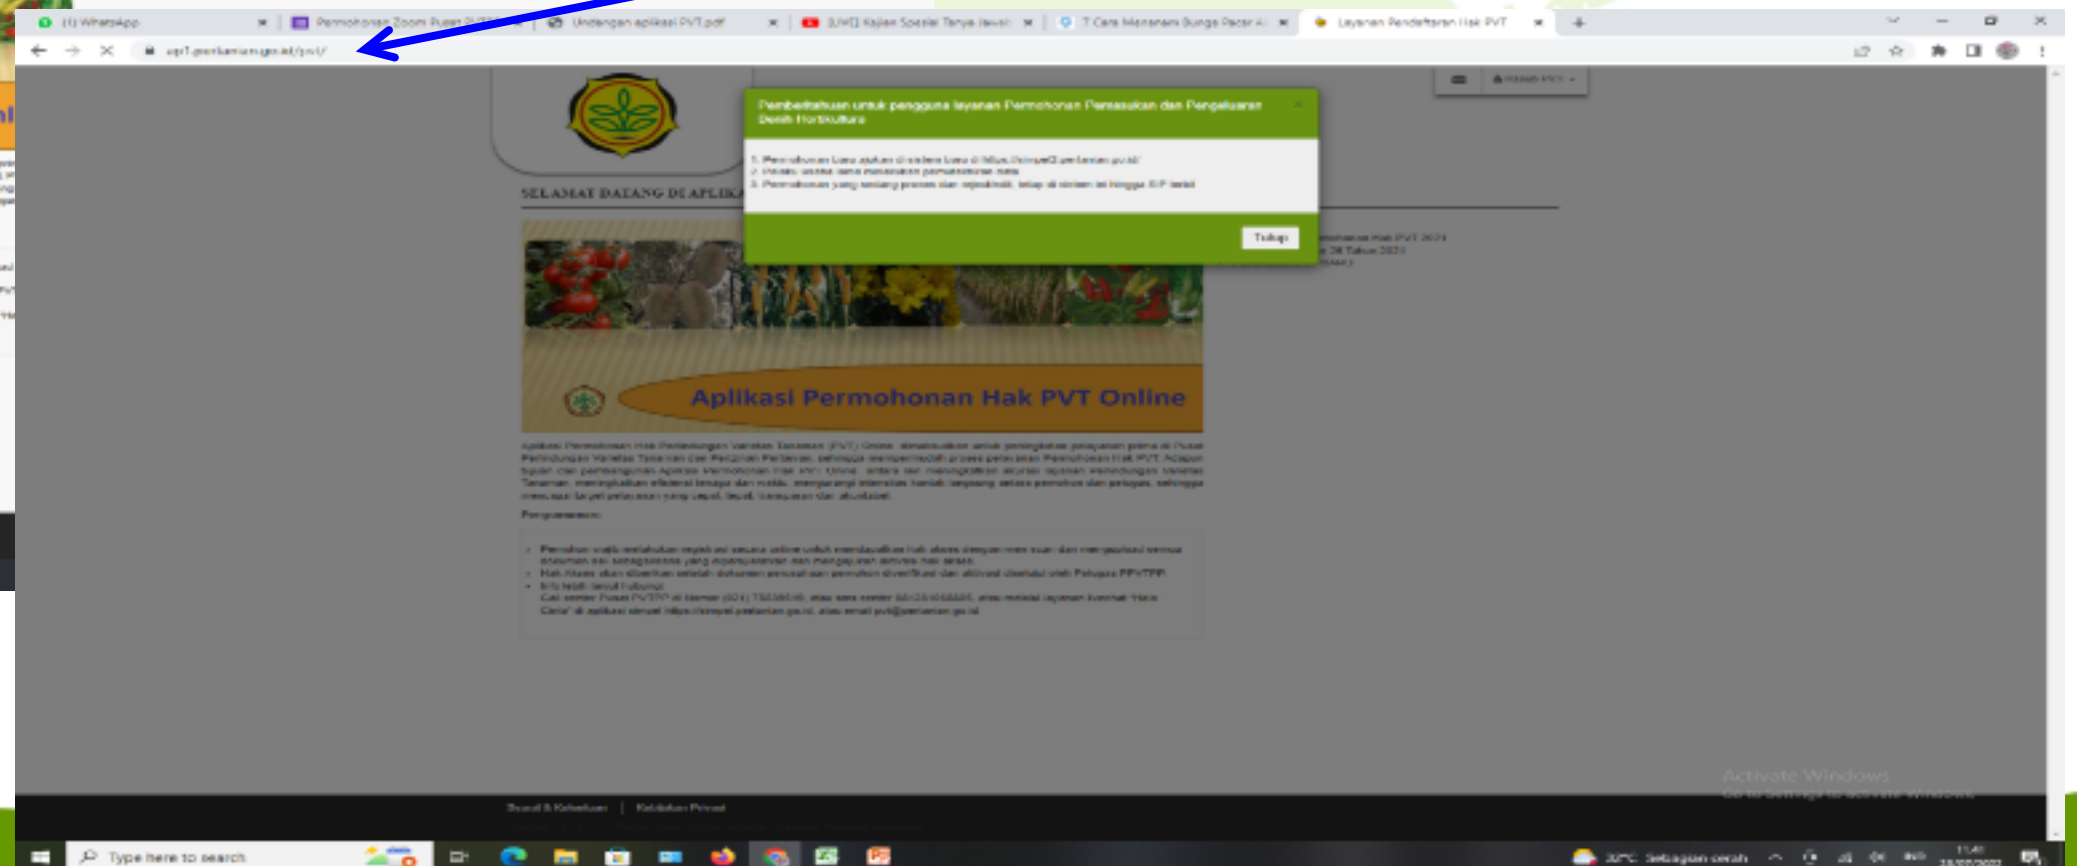

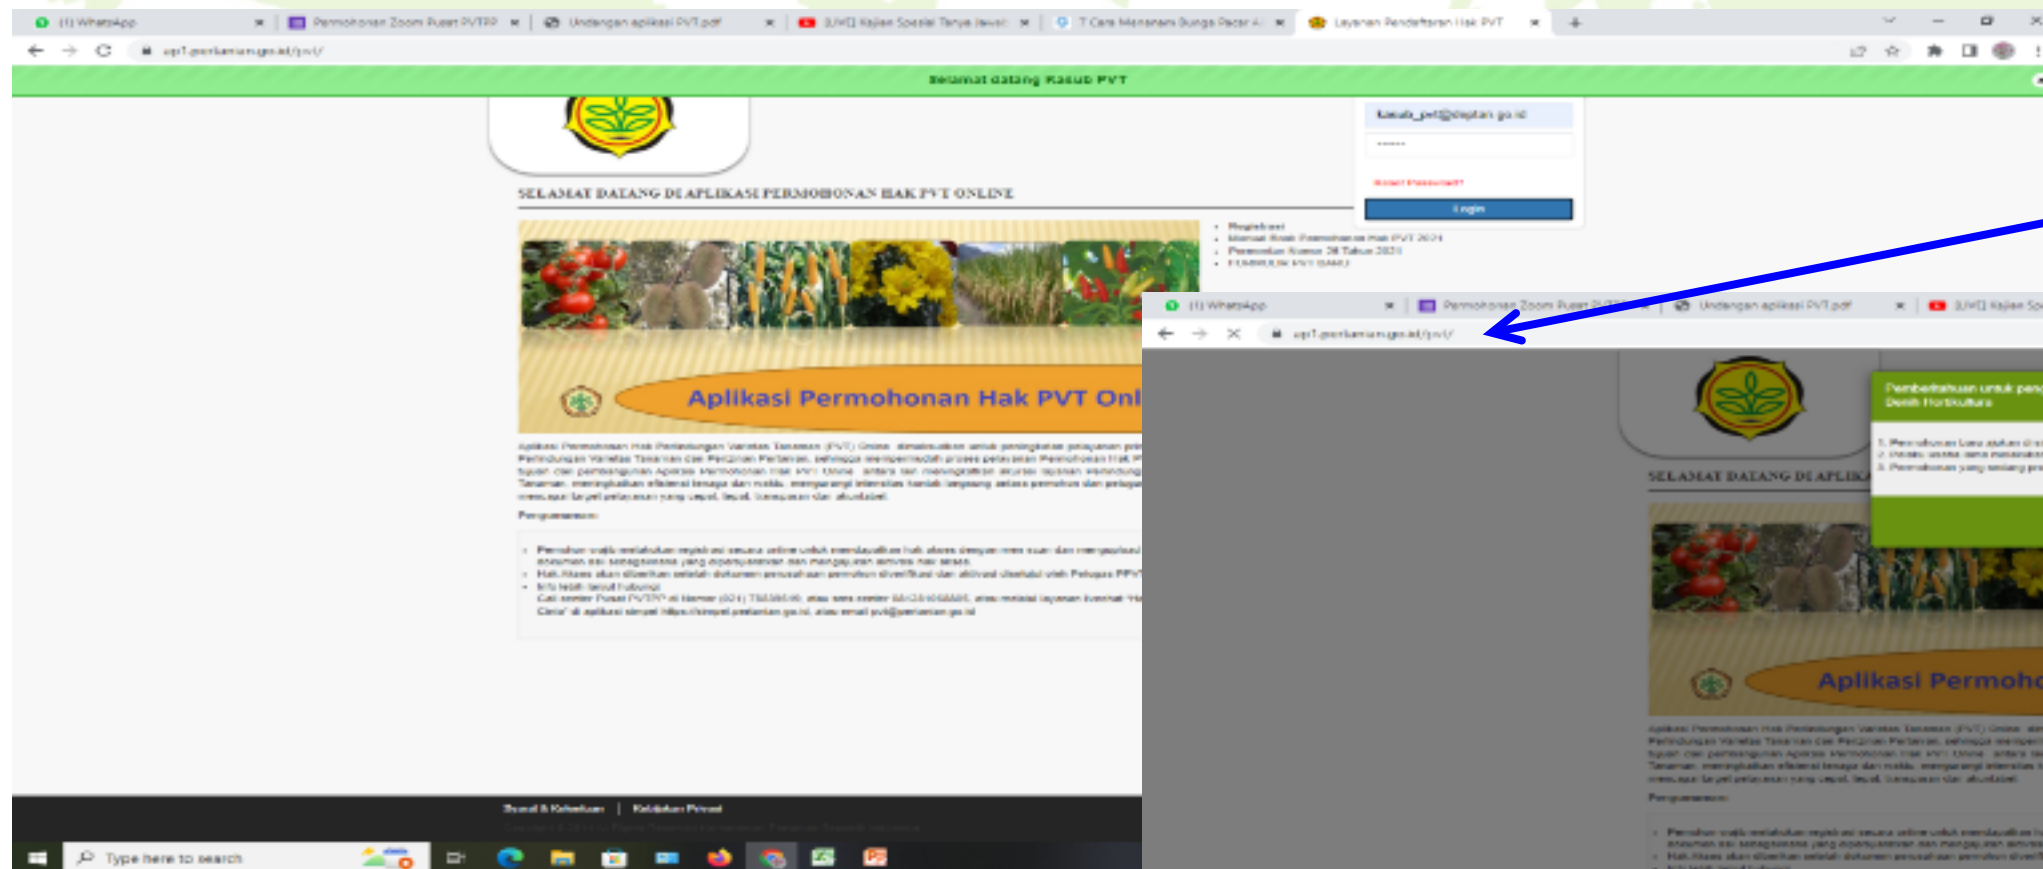

- ☒ Most applicants say it was easy application as needed
- ☒ But some features need improvement such as:
 - ☒ Data entry
 - ☒ Timeline
 - ☒ Documents upload slot
 - ☒ etc

Why we need new application?

- ❑ Unattractive interface display
- ❑ log in access not automatic (we have to *double klik at addres*)

Why we need new application?

Many feature are not perfect/ complete

- ❑ Slow speed
- ❑ Capacity of up loading documents are small (maks 10 mb)
- ❑ Unavailable web form for the application form document
- ❑ Some output were not attached with signature
- ❑ All documents can be open by all PVP examiner ❑ no privilege
- ❑ No *alert system* ❑ prone to missing deadline
- ❑ No feature for denomination checking
- ❑ Unconnected with annual fee application

- ❑ Our time line was stop at announment process.
- ❑ we have to reject the process and ask the applicant re apply with uploading dus test requirement letter.
- ❑ our admin staf will proceed the process

Notes :

1. Online application necessary to answer modernization demands, but Indonesia still receive manual submit (based paper) application, because it is stated in the PVP law.
2. The cyber attack does not delete all data, applicants data is still safe & the application documents PVP application were backed up.
3. We planning to put the announcement of candidat variety and statistical data of PVP in our new application ☒ it can be acces for public.
4. The application will be in BAHASA (Indonesia) language.
Applicants form aboard will need PVP consultant assistancy.
5. Will be added with feature for PVP annual fee payment
